Tackling COVID-19 –
Challenges Aiming at Bettering
the Higher Education Quality (TACOHEQ)

MULTIPLIER EVENT

Presentation
of the intellectual outputs
of the TACOHEQ project

25th May, 2023
10:30 a.m.

Venue:
**Conference Hall of “Bachinovo”
University Center,**
South-West University
“Neofit Rilski”,
Blagoevgrad, Bulgaria

Organized by: South-West University "NEOFIT RILSKI"

MULTIPLIER EVENT

Presentation of the Intellectual Outputs of the TACOHEQ project

Venue: Conference Hall of “Bachinovo” University Center, South-West University “Neofit Rilski”, Blagoevgrad, Bulgaria

Date: 25th May, 2023

Organized by: South-West University “Neofit Rilski”

AGENDA

Event	MULTIPLIER EVENT: Presentation of the Intellectual Outputs of the TACOHEQ project
Date	25.05.2023

10:30 – 11:00	Opening and presentation of the project
11:00 – 11:45	Presentation of IO2: Creation of on-line distance course on Bioinformatics
11:45 – 12:15	Coffee break
12:15 – 13:00	Presentation of IO3: Creation of on-line distance course on Databases
13:00 – 14:00	Lunch break
14:00 – 14:30	Questions and Answers
14:30	Closing of the event

Tackling COVID-19 - Challenges Aiming at Bettering the Higher Education Quality (TACOHEQ)
GA n° 2020-1-BG01-KA226-HE-095131

The project identifies the main shortcomings and difficulties in the process of on-line distance trainings that the students, training and administrative staff of the participating universities have faced in 2020 year, due to the pandemic of Covid-19. Those challenges were profoundly analyzed by the experienced partner organisations – Center of research and analysis (Bulgaria) and Udruzenje gradjana Osvezenje (Serbia). Based on those results it was developed special courses for on-line distance training in Bioinformatics and Databases by the partnering universities – South-West University “Neofit Rilski” – Blagoevgrad (Bulgaria), University of Thessaloniki (AUTH, Greece), Çanakkale Onsekiz Mart University (Turkey).

The main project results are the development of full methodology for shifting from face-to-face training to on-line distance training, ready to apply not only for the courses on Bioinformatics and Databases, but also to other courses and universities beyond the current partnership. The expected impact is substantial with regard to the ability of the higher education institutions to provide innovative and flexible learning methods in the challenging and changing environment which requires fast and effective solutions.
